

"Savoy Special was just that...special. This was the freshest set I've heard in a long time and the crowd at Fitzgerald's seem to agree. The songs were original and tight, and the band rocked the house with authority!" -**Emergenza**  
**Darren Burgfeld**

"Saturday is a standout.

Garage-tinged album opener *Lift Your Head* is another good cut, and *Selling Garbage* reminds me of a White Album outtake- one of those songs you loved as a kid."

-**Houston Press**  
**John Nova Lomax**

"The album (New Age Hustle), it turns out, is one of the better discs to come out of Houston this year."

-**Houston Chronicle**  
**Sara Cress**

Overall, the fresh, tight sound of Savoy Special is reminiscent of The Beatles, Red Hot Chili Peppers, and The Police. The music sounds completely original, upbeat, dynamic, and features strong melodies with memorable hooks. Savoy Special performs highly charged, energetic shows that continually captivate and engage audiences.
